

CLOCKS CHANGE; WHISTLES BLOW

Time Steals an Hour as Easter
Is Ushered In—New Time
In Effect Sunday.

Word has been passed down the line in railroad circles, that promptly at 3 a. m. every man on duty is to set his watch forward one hour. There will be no stopping and no changing of schedules. Trains will simply be one hour late. Adopting the new time Sunday they will arrive and depart according to old rules and the clock. It will take some time for them to adjust themselves, but as soon as there is a lapse in the running the hour will be made up. All men on duty change their watches at 2 o'clock and men reporting for duty later will have their watches examined before being allowed to go to work. No trouble or confusion is expected.

The daylight saving movement will be ushered into Chattanooga at 2 o'clock Easter morning at which time all of the whistles will be blown as is the usual custom in welcoming in the new year.

Promptly at 2 o'clock Sunday morning, which is the official time announced from Washington, all clocks in the United States will take a one-hour leap and the people will be expected to get up one hour earlier on Easter morning. Two o'clock will be announced in Chattanooga by the factory whistles as well as the railroad whistles and bells. Thousands of clocks will be moved forward at this stated hour, while others will be moved ahead one hour on Saturday night by such owners who do not care to be in the receiving line to welcome the new scheme.

The guards on duty at Camp Forrest Saturday night will be instructed to see to it that every clock in the various military offices at the camp are set forward one hour promptly at 2 o'clock Sunday morning.

In many of the cities the different organizations, such as the chambers of commerce, the Manufacturers' associations and community choruses are planning to have elaborate celebrations on this night and have prepared novel features for the moving forward of the clock. While nothing has been planned by organizations in Chattanooga, there will be a number of dances, parties and entertainments that will be held on the way of a watch party, or a "day" party, and some one will be designated to move the hands of the clock up sixty minutes.

The railroads will have the United States designated some particular person at each station to wire the new time to every operator on the lines so there will be no hitch in reporting trains en route. In order to keep schedules moving without interruption through the first day of the new order all trains Sunday will be marked up one hour late on the bulletin. So if a train is due in Chattanooga at 12:30, it will be set up for 1:30, which will be the correct time by the new daylight saving time. On all of the other runs the schedules will be in accordance with the new time.

At 3 o'clock Sunday morning, in one minute from that time it won't be one minute after 3, but the clock will have moved forward sixty minutes. Father Time will say when he sees what the people of America are planning to do. "Those people in America are certainly making preparations for something big. I'm beginning to think Kaiser Wilhelm had better look out."

Every business house in the United States, every bank and every school will open Monday morning one hour earlier, and officials will arrange their business schedules to conform with the new time. The people, as a whole, will adjust their business and social engagements to the new time. It has been suggested that those who do not expect to stay up on Sunday night, move their clocks and watches up one hour before they retire and in this way lose an hour before morning.

AID TO COME TO COUNTY SCHOOLS

Hixson, Tyner and Soddy Com-
ply With Terms and Will
Participate in Fund.

A great deal of effort has been put forth recently by the officials of the various schools in and about Chattanooga for the purpose of having such schools included in the Smith-Hughes act, which provides for the promotion of vocational education. Both the Central High school and the Junior High school made application to be included in the fund. However, neither of these has been accepted. Word has just been received from Nashville, the effect that the high schools at Hixson, Tyner and Soddy have been approved and will receive subsidy from the Smith-Hughes fund. The state high school inspector, Albert Williams, of Nashville, was in Chattanooga last week and made visits to these schools for the purpose of making his recommendation to the national board.

Smith-Hughes Act.
Under the Smith-Hughes act the federal government agrees to make from year to year substantial financial contributions to the support of the promotion of vocational education. The act provides that one-half of the vocational teachers' salaries shall be paid from the Smith-Hughes fund.

This movement is based on four fundamental ideas: First, that vocational education being essential to the national welfare, it is a function of the national government to stimulate the states to undertake this new and needed form of service; second, that federal funds are necessary in order to equalize the burden of carrying on the work among the states; third, that since the federal government is vitally interested in the success of vocational education, it should, so to speak, purchase a degree of participation in this work; and, fourth, that only by creating such a relationship between the central and the local governments can proper standards of educational efficiency be set up.

Vocational Training.
In selecting the schools that come under the Smith-Hughes fund the vocational training taught in the schools must be vocational training for the common, wage-earning employments. It must be given to boys and girls who, having selected a vocation, desire preparation for entering it as trained wage-earners; to boys and girls who, having already taken up a wage-earning employment, seek greater efficiency in that employment, or to wage-earners established in their trade or occupation who wish through increase in their efficiency and wage-earning capacity to advance to positions of responsibility. No academic studies can be supported out of Smith-Hughes money.

Hixson, Tyner and Soddy.
Hixson, Tyner and Soddy schools are the first three that have been selected in this community to be included in the fund. The amount of \$34,000 has been set aside this year for the state of Tennessee by the federal treasurer. The bill provides that the students in the vocational classes shall be above fourteen.

Manual training has been excluded from the list, according to reports, as the way it is usually taught is not considered a vocational subject, as it doesn't prepare the boy to undertake the pursuit of a trade or an industry. Such subjects as home economics work, printing, sewing and domestic science are included in the list. However, in selecting the schools the officials take into consideration whether or not the pupils in these classes expect to follow such subjects and a line of work.

Guiding Principle.
The guiding principle of the vocational education act is that the education to be furnished must be under public supervision and control and designed to train persons for useful employment, whether in agriculture, trade, industry or home economics. The money set aside by congress for vocational education are appropriated on a graduated scale, the amount increasing year by year up to 1925, when the maximum is reached. This maximum becomes the annual appropriation established by the act and is continued indefinitely after the year 1925. Every dollar of the federal money appropriated for the purpose of co-operating with the states either in the payment of salaries or in the preparation of teachers is furnished upon condition that it be matched by an equal amount appropriated for the same purpose by the state, the local community, or both, in which the federal money is to be spent.

WILL BUILD LEVEE AT CLOSE OF WAR

Strong resolutions were adopted by the Chattanooga Hamilton County Flood Prevention association at the first meeting of the organization since the membership had been enlarged.

The resolutions passed provide for the immediate building of a levee after the war is over and financial conditions have adjusted themselves. The resolutions also state that the building of the proposed levee should be done by Hamilton county, to be financed by an issue of fifty-year serial bonds. It further resolves that the membership of the association oppose the candidates for election to the legislature or the county court opposed to such plans.

John Stargis, E. D. Reed and O. B. Adams were added to the executive committee.

The resolutions as passed are as follows:
"Whereas, it is generally agreed that, in order to insure the industrial and business growth of Chattanooga and vicinity, the city and adjacent territory must be protected from the floodwaters of the Tennessee river; and
"Whereas, the investigation and report of Maj. A. L. Dabney shows that permanent protection can be had by means of levees; therefore, be it
Resolved, That it is the sense of this meeting that a protection levee should be built by Hamilton county, to be financed by an issue of fifty-year serial bonds, said bonds to be retired serially after ten years; that a special tax should be levied for the specific purpose of retiring said bonds and paying the interest thereon;

"That the building of the proposed levee should be started at the earliest possible moment after we have whipped the Germans and general financial conditions have assumed a normal; be it further
Resolved, That the membership of this association and the allied interests oppose vigorously any and all candidates for

election to the legislature or county court who are not publicly in accord with the essentials of a protection system as outlined.

LAYMEN'S BANQUET PROVES BIG SUCCESS

Stirring addresses, splendid vocal selections and other pleasing numbers were features of a laymen's missionary banquet at the Baptist Tabernacle Friday evening. The menu was served by the ladies of the Tabernacle, and Dr. E. B. Wise acted as toastmaster. F. A. Seagle, of the Cumberland Presbyterian church, spoke on "The Tabernacle in the Past." "Evangelistic Work of the Tabernacle" was the subject of an address by Harry E. Chapman, of Centenary M. E. church, south. J. E. Annis, a well-known Congregationalist, spoke on "A Manufacturer's View of Tabernacle Work." The address of S. Barlow Strang, of the Episcopal church, was on "Opportunity for Men in the Tabernacle." The next speaker named on the program was W. N. Jones, of the Presbyterian church, and "Organized Club Work for Men in the Tabernacle" was his subject. D. A. Landress, of the Central Baptist church, spoke on "Business Men's View of Tabernacle Work." Dr. J. W. Gillon, Baptist state secretary of Tennessee, was present and delivered an address on "Christian Education." Included in the vocal numbers were selections by a trio composed of Misses Wallace and Scoggins and R. O. Bell, assistant pastor of the Tabernacle. A recitation was rendered by Miss Landress. Dr. J. B. Phillips, Tabernacle pastor, added to the completeness of the program.

Baptist Tabernacle.
Special services will be held at the Baptist Tabernacle, corner of Long and Twenty-first streets, Sunday morning and night. Dr. J. B. Phillips, the pastor, who has been away for several weeks holding evangelistic meetings, will preach at both hours, and it is expected that large congregations will hear his messages. On Sunday evening a patriotic Easter service will be held. This service, which begins promptly at 7 o'clock, has been planned by the young people of the Tabernacle. The first half hour will be devoted to the singing of patriotic numbers and appropriate Gospel songs by the Tabernacle chorus and congregation. A special address to young people will then be delivered by Dr. Phillips.

MAY PROVE MENACE TO PEACE IN FAR EAST

London, March 30.—"The fear is rightly entertained that Germany's influence may gradually extend eastward and prove a menace to the peace of the far east," said Premier Terauchi, in an address to the upper house of the Japanese parliament, as quoted in a Reuter dispatch from Tokyo.
"Should the situation develop in such a way as to endanger the security and well-being of our country or to call for action to protect the common interests of the allies, this government is resolved to take steps to cope adequately with the situation."
The premier said events might demand reassembling of the diet, which was prorogued on Wednesday.

Children Cry FOR FLETCHER'S CASTORIA

NEGRO HELD ON CHARGE OF ROBBERY PARCEL POST

In connection with thefts from parcel post packages and from Southern Express shipments Luther Page, Ed Brown and Alec Ledbetter, colored, were arrested Friday by Detectives Carl Whiteley and Paul Brown. As a result of the investigation of the plainclothes men a great deal of clothing has been recovered, and the accused negroes were each bound over to the grand jury at the conclusion of their hearing in police court Saturday morning. Their bonds were fixed at \$1,000. According to Detective Whiteley, the three men have been working in the mail room at the Terminal station. He said that the stealing has been going on two or three months.
Page admitted in court that he got some articles. He said he could not make "nobody else's time."

ECZEMA CAN BE CURED Free Proof To You

All I want is your name and address so I can send you a free trial treatment. I want you just to try this treatment—that's all—just try it. That's my only argument.
I've been in the drug business in Fort Wayne for 30 years, nearly everyone knows me and knows about my successful treatment. Over six thousand five hundred people outside of Fort Wayne have, according to their own statements, been cured by this treatment since I first made this offer public.
If you have Eczema, Itch, Salt Rheum, Tetter—never mind how bad—my treatment has cured the worst case I ever saw—give me a chance to prove my claim.
Send me your name and address on the coupon below and get the trial treatment I want to send you FREE. The treatment is guaranteed to your own case will be proof.

J. C. HUTZELL, Druggist, 2506 West Main St., Fort Wayne, Ind.

Please send without cost or obligation to me your Free Proof Treatment.

THE MARRIAGE QUESTION

The subject of Marriage, in its relation to the Welfare of Society, the Perpetuation of the Species, and Incompatibility of Temperaments, is thoroughly discussed. A chapter on First Aid to the injured, accidents and emigration.
The subjects of Impediments to Marriage, Hygiene of the Organs, and the diseases that arise from improper living, should be read by all. It is a false modesty, productive of untold misery, that keeps such important information from the young. Every married couple and all who contemplate marriage should own this complete book of life—called the Common Sense Medical Adviser.
This Common Sense Medical Adviser contains 1,000 pages, 200 illustrations, wood cuts, half-tone and colored plates, and is bound in cloth. This popular work contains information for the young and old, male and female, single and married, not hitherto published for the non-professional.
